Activity	Advanced ICT Certifications			CFU: 1	Documents for Approval (if needed):
	Proposal Detail (if needed):	<p>The activity involves attending the following <b>3 courses offered by Akkademy (Lightbend) about the Reactive Architecture</b>, basically the ones that allowed me to conclude the series of courses began with a previous approved other training activity:</p> <p><b>1) Building Scalable Systems</b> (<a href="https://akkademy.akka.io/learn/courses/8/reactive-architecture4-building-scalable-systems">https://akkademy.akka.io/learn/courses/8/reactive-architecture4-building-scalable-systems</a>);</p> <p><b>2) Distributed Messaging Patterns</b> (<a href="https://akkademy.akka.io/learn/courses/9/reactive-architecture5-distributed-messaging-patterns">https://akkademy.akka.io/learn/courses/9/reactive-architecture5-distributed-messaging-patterns</a>);</p> <p><b>3) CQRS &amp; Event Sourcing</b> (<a href="https://akkademy.akka.io/learn/courses/10/reactive-architecture6-cqrs-event-sourcing">https://akkademy.akka.io/learn/courses/10/reactive-architecture6-cqrs-event-sourcing</a>).</p> <p>The link of each course contains all the necessary information to assess this activity in terms of contents, evaluation and the certification.</p> <p>In terms of completion time and effort this activity is equal to the previous one already approved (the first three courses offered by Akka - Lightbend about reactive architectures), that's why I'm asking for 2 CFU also for this one. Thank you in advance for the attention.</p>
