Activity	MICHAEL AMISTA'		Added on	20 Nov 2024	Last modified	5 Dec 2024	
	Advanced ICT (Certifi	cations		CFU: 2	Documents for Approval (if needed):	
	Proposal Detail (if needed):	The activity involves attending the following 3 courses offered by Akkademy (Lightbend) about the Reactive Architecture , basically the ones that allowed me to conclude the series of courses began with a previous approved other training activity:					
		1) Building Scalable Systems (https://akkademy.akka.io/learn/courses/8/reactive-architecture4-building-scalable-systems);					
		2) Di	2) Distributed Messaging Patterns (https://akkademy.akka.io/learn/courses/9/reactive-architecture5-distributed-messaging-				
			patterns);				
		3) CC	QRS & Event So	ourcing (https://akkad	demy.akka.io/lea	n/courses/10/reactive-architecture6-cqrs-event-sourcing).	
		The I	The link of each course contains all the necessary information to assess this activity in terms of contents, evaluation and the				
			certification.				
		In terms of completion time and effort this activity is equal to the previous one already approved (the first three courses offered by Akka - Lightbend about reactive architectures), that's why I'm asking for 2 CFU also for this one. Thank you in advance for the attention.					
Evaluation:	Proposal Approved? Info for Evaluation:	Activity Performed: Yes Proof of Completion (if needed): 人
