NEGATIVE DESIGN: ITALO

Main problems:

- carousel management

- conflict with OS gestures

- loss of the bottom menu in internal pages

- dangerous operations in the comfort zone

Some solutions:

- use buttons to provide carousel information

- delete problematic gestures

- include the bottom menu across all pages

- move dangerous operations outside the comfort zone

POSITIVE DESIGN: TAPO

Positive aspects:

- Follows the principle: "content on top"

- Just-in-time interfaces

- Gestures
