Lecture *

Thursday 7 December ▼

Thursday 7 December

Topic number *

48. (Social Networks): Social Network Analysis   ▼

Question: *

When the authors had to choose the dataset for this work, they chose the U.K., also because it has just one timezone. How could the number of timezones, of the chosen country, affect the result of this work?

Topic number *

50. (Social Networks): Private data inference from Social Networks   ▼

Question: *

How does the study account for the temporal aspect, considering that the dataset is based on the profile information and recent posts at a specific point in time? Is the result reliable yet?

Other Question (not mandatory). Please specify the topic.
